The journey through high school has its dead ends and bumps along the way. When you start out on your journey, you don't know the road ahead. You choose the road you travel; for some it might be sports and for others it might be academics. Some may not even know where the road will lead them, but they keep on truckin'. When you come across a fork in the road, don't turn back; keep your eyes on your destination.

CLASS POEM 2006

During our days at EHS, we all have a story that can be remembered.

Whether it's sports, academics or music
Causing pandemonium or some other event was sure to occur
We have been called loud but also stoic,
Some of us are still not sure what that means
Hopefully, next year at college we can figure it out
We are the Class of 2006 and this is what we're about

Brian was our BB gun
He was our #1 heavyweight wrestler
Which meant he definitely didn't like to run

Aleah was our last addition
She had a lasting smile
That came all the way from Michigan

Austin Flynn was usually a quiet guy
Although he got pretty loud quickly telling a story
He loved P.E and always seemed to be flying high

Rebecca was always with her bud, Nicole
Country music and cruising were her passions.
When Rekow and Nicole wanted to drive around,
she said let's roll.

Kurtis was always working hard
He even made all-state
He always seemed to be hyper at any rate!

Kale was all about his name
It's written everywhere in the school
But he thought chasing girls was his real claim to fame

Brennan could throw a good fastball
But without Tara he was a little lost
Luckily he will find baseball and her next fall

Jennifer helped the volleyball team to state
When it came to her pageants
She always got to celebrate

Jacob was king during the year
No harm just charms
His crazy long jump style was the one to fear

Brandon Hokana aka Hokey was our lead man
Running the ball his way was his favorite play
When we called a pass, all we got from him was Egh!!!

Jasmine was always cruisin' in the yellow Monte
She always made sure she had a say
But it was usually smile and have a nice day

Nicholas was always making changes to his cars.
Hopefully the speed of his new black one
Won't put him behind bars!

Whitney always got her two cents in to you
Playing her guitar was her passion
She will play her tune all the way to MNU

Evan said he was here, he was there
Everywhere and anywhere
For him not to be talking was quite rare!

Craig was very smart and bright
This was no myth
Next year he will find his way as a gunsmith

Brandon Rekow thought he was our Nascar Man
Losing his license didn't help that cause
Because when the cops came he always ran!

Maren was very witty also with a bit of elegance
She could help you out in many ways with many words
Her fabulous voice was always one to be heard

Adam was long and tall
He was always good at basketball, the only thing we ever asked was
"Schloss, why didn't you dunk the basketball!"

Austin Smith was our Ford guy
When Chevy man Rekow would ask why
Austin would just fly right by

Jessica plans to study medicine at UND
She was our valedictorian
Very successful and wealthy is what she will be!

McKenna was all smiles with no foes
When she arrived fashionably late to school
Everyone was sure to know

Nicole could bump, set, and kill
When she went cruising with Rekow
She racked up quite a bill

That wraps up this year's edition
Everyone is being guided in a different direction
Leaving behind the image that could have been
And looking ahead to the image we hope to be

A lot of the juniors have lived in North Dakota their whole life. Their most popular dream vacations are the Bahamas, Hawaii, and California. The juniors are most likely found at school during the day and Cenex at night. They have a few big travelers with Brad Shumaker traveling to 38 states and Stacelyn Peckinpaugh to 30. Ashley Nelson has traveled the farthest from here when she went to Rome. Many of the juniors haven't moved, but Stacelyn Peckinpaugh has moved 14 times. The juniors' destination is almost complete, and they are looking toward their futures.

The Class of 2008 has been quite busy this year. The sophomores are involved in sports, and extracurricular activities. They now have jobs and are busy with school. Twelve of the twenty-two sophomores have moved from a different state, Michigan, North Carolina, and Oklahoma. Lane Olson, the most adventurous guy of the class, has moved the most times. Rachelle Hildenbrand has been the farthest away from Ellendale as she has been to Japan. Logan Redmond and Erica Smith are the most traveled people of the class. They have been to states such as Florida and Alabama. The class of 2008 is most likely to be found at the gym during the day and Cenex at night. The sophomores' dream vacation is Hawaii. As the sophomores put another year behind them, they look forward to the next step in their journey through high school.

The eighth grade class is anxiously awaiting their next trip. They are getting ready for the final journey, high school. It will only make them a year older, but a lot smarter according to them!

According to Ty Bommersbach, "It's nice not getting pushed around as much with the seventh graders now."

If you are looking for an eighth grader, you are most likely to find them wandering the halls of EHS. This group would rather be a lot warmer as their dream vacation is Hawaii!. They are quite the traveling bunch. Twenty-one of them have been to eleven surrounding states. Eight of them have moved in their day with Drew Mowry leading the way. Kyle Ketterling made a trip to Germany, the farthest any of them have traveled. He said, "It was a great, great trip." This group is always on the move, completing tasks of all sizes.

CASPER/ SADD

CASPER / SADD have found themselves very involved this school year. They reached out a helping hand to hurricane Katrina victims by putting Operation Shoebox into play. They gathered shoeboxes filled with toys and supplies from many people of the community and then worked together with NHS to send those gifts to children in New Orleans. The project was a great success. CASPER also had free activities going on during Applefest on main street this year. Of course we can't forget the exciting CASPER Carnival that entertained many kids this year, too. All of the kids and Mrs. Edwards did a great job of showing a positive attitude this year in all of their events.

FCA gives Christian athletes a place to comfort themselves after a week's worth of chaos. Every Tuesday, this group meets to pray about the week and encourage each other to keep moving on through the week. They meet at the end of lunch hour which gives them enough time to give support or just have a few laughs before the rest of their busy week begins.

Student Council is active in many different activities throughout the school year. The student council group gets together three times a year to serve their highway beautification project. During the spring the group sells daffodils to help raise money for the American Cancer Society. They also help at the local blood drives. This year the Student Council put on the homecoming dance and another dance in the spring. This group keeps plenty busy getting things done.
